- August 10-21, 2023 Install two purifiers in Kisumu schools and one in Nairobi, **Kenya** at Dorothy Girl's Home, safari to view wildebeest migration and balloon ride over the Savannah.

WORKING TOWARDS A GOAL

On March 22, we celebrated World Water Day on the eve of the United Nations Water Conference at UN Headquarters in New York, co-hosted by Tajikistan and the Netherlands. On World Water Day, you may have seen our social media posts sharing that one in four people worldwide cannot access safe drinking water.

In 2010, the United Nations recognized access to water and sanitation as a human right - **vital to every person's health, dignity, and prosperity**. The UN set the goal to achieve this access for **every person** by 2030. At Fountains of Hope, we work every day to take one step closer to reaching this goal by providing water purification systems where there is no safe water. If you'd like to know more about upcoming trips to Turkey, Zimbabwe, Kenya, or Liberia, or if you would like to join us in Zimbabwe or Kenya, contact Bill at bill@fountainsofhope.org.

SUCCESSFUL TRIP TO UGANDA

In January, Bill spent a week in Uganda installing two purifier systems and training the Mukono community on the system. Fred Senkumba, our Uganda country director, was given an additional system to install for 1000 people at the Rock of Ages Primary School in Kampala. This school had a typhoid outbreak, and students were also struggling with skin diseases.

We are so excited that the Mukono and Kampala communities can now fill countless water bottles with safe water for their families to use!

A BIG thank you to the members of Synergize for voting for Fountains of Hope as one of their 2023 causes! We look forward to making a positive difference through your generosity!

Thank you as well to our corporate sponsors below!

Volunteer with our FoH team!

Go on a trip, host a dessert fellowship, invite FoH to talk at your church, small group, club, or business, and sign up for the Kroger Community Rewards program. Questions? Contact Bill at Bill@FountainsofHope.org

Thank you to Don Cherry & Strings With Wings for the donation of two guitars. We were able to deliver and give the guitars to Young Life Cameroon!

FOH FIRST TIME TRIP TO CAMEROON

Bill Farrar and Jim Risk had a successful trip to Yaoundé, Cameroon, West Africa. This is the first trip Fountains of Hope has taken to Cameroon, and we are already looking forward to many more in the future.

Bill, Jim, and Silas were able to install three purification systems at a church and two schools. The school principal was so grateful that he gifted them beautiful ceremonial smocks in a dedication service.

They also worked with the Cameroon Young Life director, Donald Aneng, to install a platform at the school where he is a volunteer leader. Through the generosity of Strings with Wings, FoH was able to gift two guitars to Donald and Young Life.

FoH sent another purification system to a school experiencing a cholera outbreak that will be installed within the month. Indeed, God has used Bill and Jim and all those who helped support this trip to make a difference in the lives of those in Cameroon!

APRIL HEALTH AND HYGIENE CONFERENCE

Our second FoH Health and Hygiene Conference took place on Saturday, April 29th. It provided many of our FoH trip participants with information on community mapping, germs/parasites, and hygiene/water solutions for impoverished areas worldwide.

These participants can now go out and impact and improve living conditions for many people! In fact, several conference participants will join us on our Zimbabwe and Kenya trips this summer and do just that! Fountains of Hope would like to thank Dr. Guy Crowder and Franciscan Travel Well for partnering in the training.

SAVE THESE DATES:

- Friday, Sept 15, 2023 **4th Annual Havana Nights Event** - Bourbon, Champagne, and Cigar Soiree
- Saturday, Nov 11, 2023 **8th Annual Hues of Blue Gala** - Dinner, Speaker, and Dancing
