- Jun 24 – Jul 3** **Tanzania – Young Life Medical Mission Trip** Install 2-3 purifiers at schools.
- Mid July 2022** **Kenya** – Install 2 systems plus safari viewing wildebeest migration.

**Who Is Blessed More?**

As FoH starts traveling again, I am amazed at all the lives we continue to touch whether we are physically in country installing water purifier systems or not. FoH has just completed three trips this year, two to Puerto Rico and one to Uganda installing 10 systems. Most of last year when we couldn’t travel, we relied on our FoH Country Directors to bless others in various ways. We sent money to provide food to widows, orphans and lepers and paid teachers’ salaries getting almost 500 children back in school at no cost to their families. I don’t know about you, but I love the ministry work we do!

Since our inception 12 years ago, FoH has been to 17 countries and installed 240 purifier systems. Last year we had to pivot by going deeper in the communities we serve by expanding our ministry to also provide food for the poor and teachers to children whose parents can’t afford to send them to school. We are looking to also add filter buckets to our repertoire. Families or classrooms would get their water from our large, purified water tanks to take water to their homes or rooms.

Did you know that through FoH, \$100 per month will send up to 30 children to school for FREE by funding the salary of their teacher and feed them a nutritious meal every day. Please sign up to be a “Water Is Life” regular, monthly donor. Please go to our website at [FountainsOfHope.org/Donate](http://FountainsOfHope.org/Donate) and give. Personally, I know that I am blessed more by being a blessing to others. How about you?

*Bill Farrar* – Executive Director

**Join our FoH Family!**

**Do you know that just \$25 can provide a family with safe drinking water for 10 years?  
Will you join and become a regular, monthly donor? [FountainsofHope.org/Donate](http://FountainsofHope.org/Donate)**

## Trip Updates

### Puerto Rico – August 14-22, 2021

Dr. Jeff Soldatis and Bill Farrar traveled to Isabella and Lares Puerto Rico and installed two water purifier systems. Both systems are needed due to the threat of hurricanes and earthquakes.

### Uganda – June 11-20, 2021

FoH President Chris Kennedy and his brother Sean joined Bill installing 3 of 6 purifier systems at schools in Kampala. The remaining systems will be installed by our FoH Uganda Team.

### Puerto Rico - May 1-8, 2021

We had an awesome team of seven installing two purifier systems in NW Puerto Rico. Nick & Barb Tillema, Larry & Ruth Timm, Andy Weber and Bill & Kathy Farrar worked hard and enjoyed some wonderful sea food on FoH's first trip since COVID-19 started.

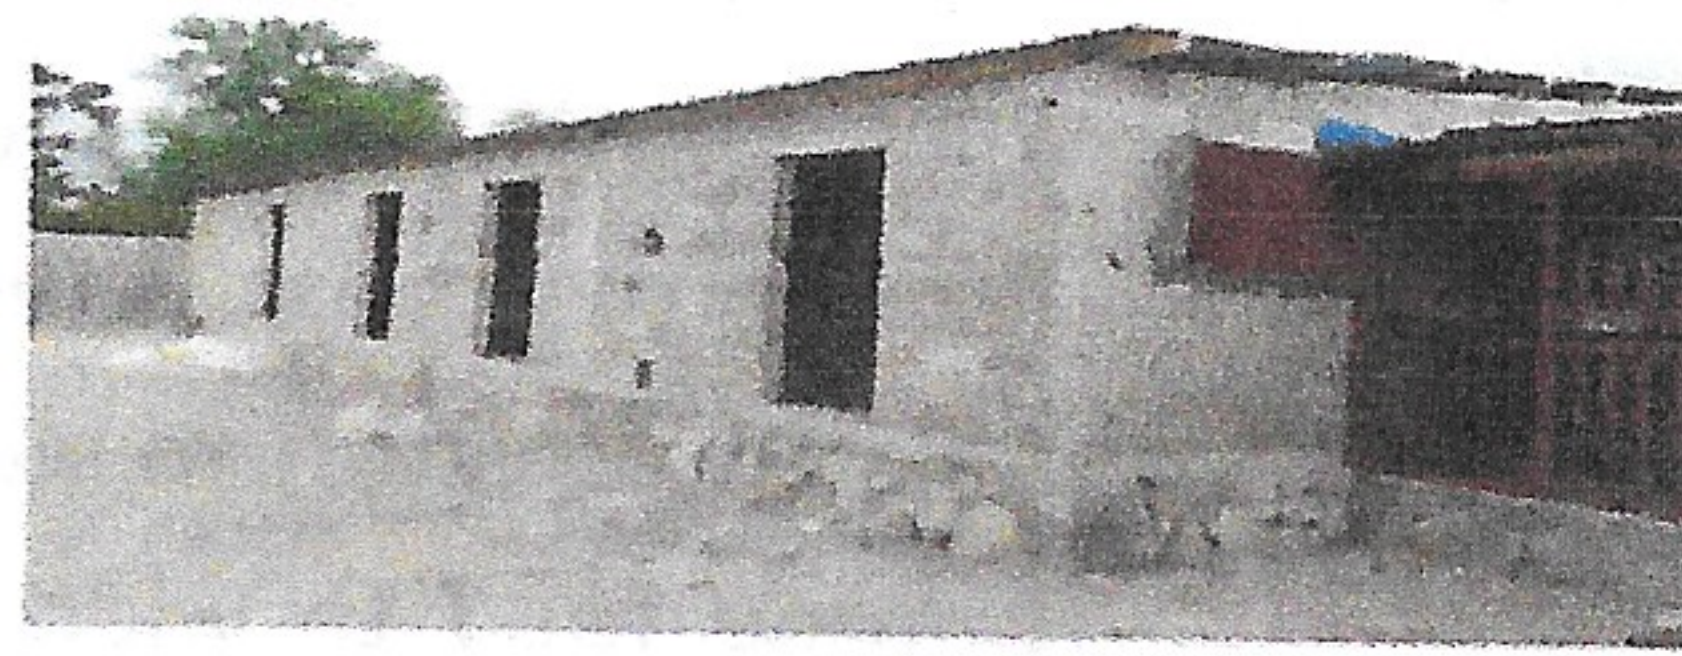

### JOIN FoH ON A LIFE CHANGING TRIP!

Visit our website [FountainsOfHope.org](http://FountainsOfHope.org) and register for an upcoming trip.

## FoH has a NEW Website

Celebrating 12 years of ministry, FoH has a new look! Visit us at [www.FountainsOfHope.org](http://www.FountainsOfHope.org) and see great pictures, testimonies and stories about how God is changing lives by providing safe water to people all over the world!

See how YOU can get involved by going on a trip, donating to FoH, praying for and being an advocate for the ministry.

## FoH Building a School Addition

FoH supports a school in New Jerusalem, Haiti through our Country Director, Pastor Dieucon Pierre. Initially, the school had 120 children attending but last year due to COVID, the attendance tripled to 360! Many of these children attend class by sitting outside under the trees in the hot sun.

With the help of several kind donors, FoH is half way through building a 60' x 30' addition to the existing school adding 5 additional rooms. The school walls and roof have already been built. During the next phase FoH will fund concrete flooring, doors, windows, and build tables with benches. This school is needing \$5,300 to complete this last phase. Would you please consider helping to fund a part of this project?

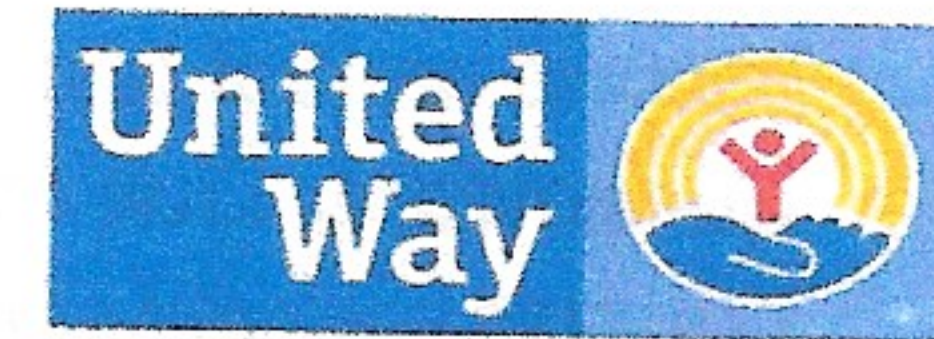

FoH Purifier System Adjacent to New School Addition in Haiti

## Giving Through United Way

Please designate Fountains of Hope as the recipient to your gifts through the United Way.

You can designate your company United Way donations to go to Fountains of Hope through the United Way of Central Indiana. Be sure to write in Fountains of Hope on the line at the bottom of the page. We are grateful for your support!

of Central Indiana

## New Partnership with Young Life

Prior to COVID-19 in January of 2020, Fountains of Hope was invited to attend the Young Life Africa/Middle East staff conference in Nashville, TN. There were over 60 Young Life staff representing 17 countries in attendance. We found out that many of the schools where the staff worked with youth are in locations needing safe water.

During our June trip to Uganda, FoH installed our first Young Life water purifier system at Blue Nile School with Young Life Director Simon Okiria and Principal Francis Olupot located outside of Kampala, Uganda. We had some challenges when Uganda's President shut down the country due to a spike in COVID. We were half way done with the job when the entire country was quarantined. The three of us from the USA had to leave without completing the project.

Uganda reopened in late-August and Fred, our Country Director and the Uganda team stepped in. Fred, Joseph and John Paul all helped in finishing the installation and trained Francis. Thank you, team, for your hard work!
