Looking Forward To 2023!

Fountains of Hope has completed an amazing 2022 going on five trips – three to Zimbabwe, one each to Tanzania and Kenya. Our country directors in Haiti and Uganda also helped to install water purifiers on their own. FoH distributed our first FoH Bucket filters in Tanzania, Kenya and Zimbabwe.

This year FoH had over 50 volunteers go with us on life changing trips including most recently 79-year-old Jack Ellett from Zionsville Presbyterian Church. It goes to show that you are never too old to travel on a FoH trip with Bill. Jack said that he gained a new appreciation for what Fountains of Hope installs at *schools in need of clean, safe water and that he was glad he went.*

In 2023, FoH looks to be adding some new countries including Liberia and Cameroon to our country installations list. We have now installed over 265 water purifiers in 17 countries. Bill is finding more people throughout the world hurting because of hyper-inflation, starvation and diseased water. We are so blessed here in the USA to have our basic needs met - a toilet, safe water and a second faucet that has hot water. 80% of the world doesn't have these basic necessities. But FoH is making a difference with your help! Please become a "Water Is Life" monthly donor in any amount, small or large, by returning the enclosed envelope.

Through the generosity of you, our FoH donors and volunteers, children and entire communities drink safe water and learn safe hygiene practices. You can do your part in this amazing cause and take action to make a huge difference all over the world.

Kathy and I had a quiet Christmas but very happy that our daughter Michaela got married on New Year's Day! We hope that you have a blessed 2023!

Bill & Kathy Farrar

Volunteer with our FoH Team!

Go on a trip, host a dessert fellowship, invite FoH to talk at your church, small group, club or business. Sign up for the Kroger Community Rewards program and at Smile.Amazon.com. Questions? Contact Bill at Bill@FountainsOfHope.org.
